

HOW TO MAKE A CORONATION CROWN

YOU'LL NEED

- Two A4 sheets of thick paper or card
- Felt tip pens or coloured pencils
- Tinfoil
- Embellishments to add some sparkle, like old or broken jewellery or pressed flowers
- Glue
- Scissors
- Sticky tape or a stapler

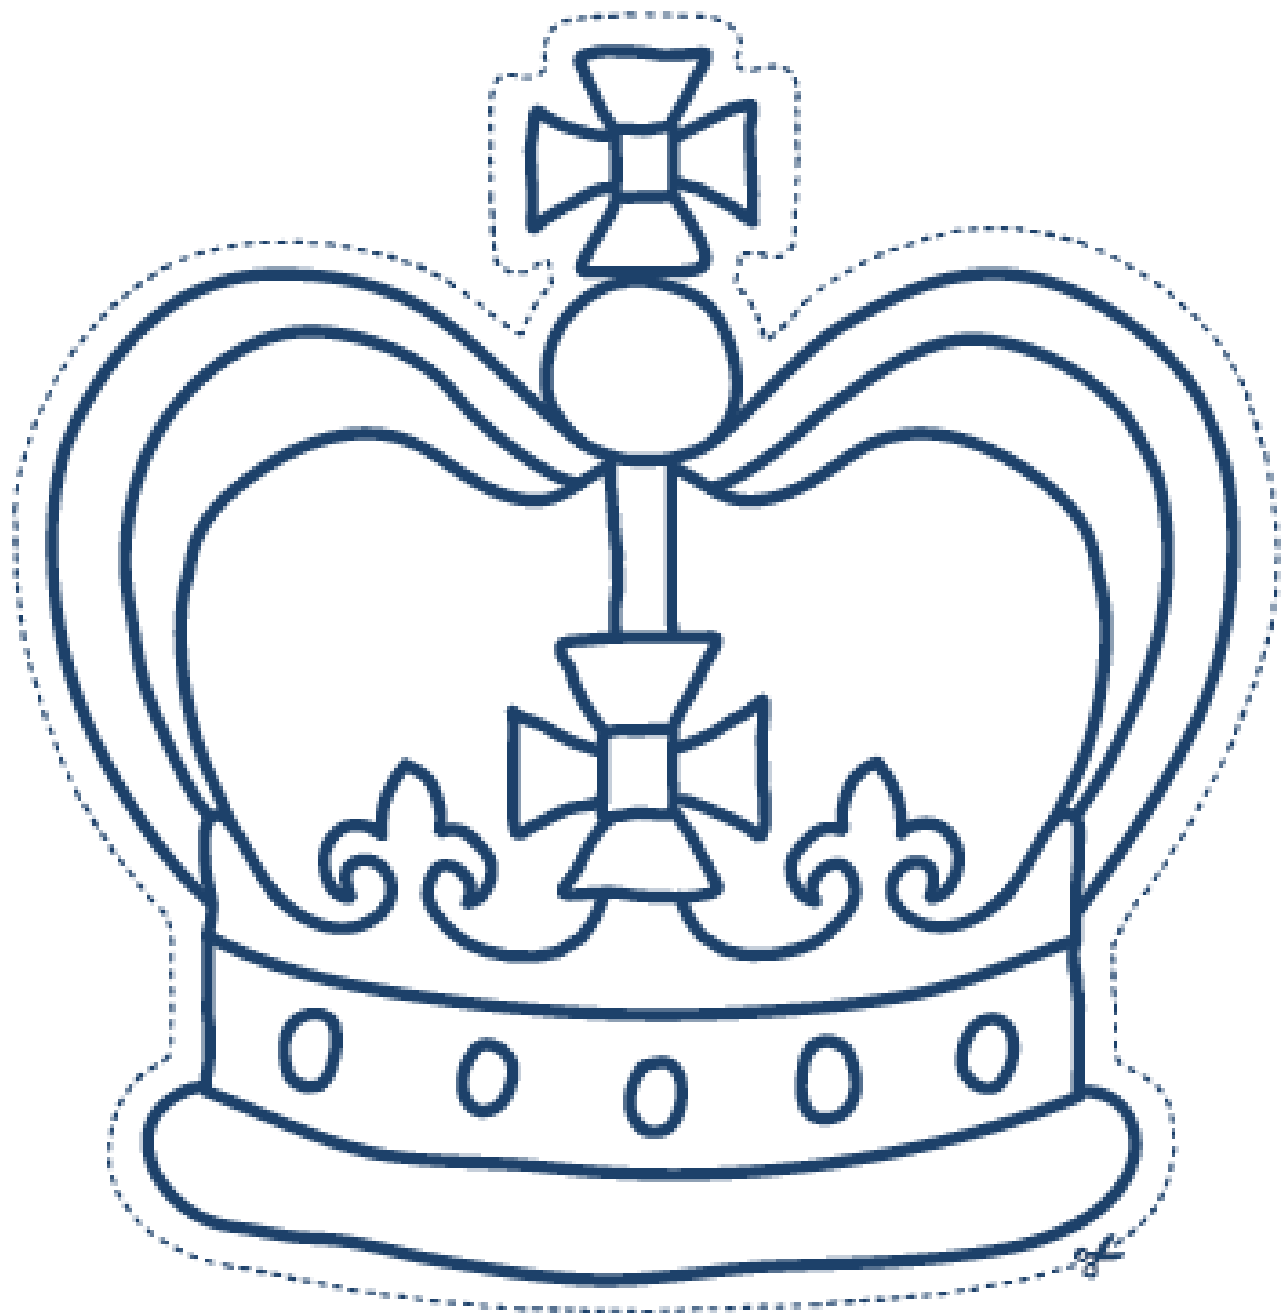

Rummage through your recycling for materials – use a cereal box to make your headband or swap tinfoil for shiny wrappers!

INSTRUCTIONS

- 1 Print the crown template from TheBigJubileeLunch.com/Crown onto one of the sheets of card. If you don't have a printer, draw it out instead.
- 2 Use the pens or pencils to colour in the crown.
- 3 Cover in tinfoil and decorate with sparkly bits to make it look fancy.
- 4 Use the second sheet of card to create your headband. Cut three horizontal strips (about 5cm wide) and tape or staple together to form one long strip.
- 5 Carefully cut out your decorated crown, add glue and stick in the centre of your headband.
- 6 Wrap the band around your head and tape or staple to the correct size.
- 7 Ta da! There you have it – your very own coronation crown, perfect for pictures at your Big Jubilee Lunch.
